

**Guidelines from church leadership for safe worshipping and activities:**

With Covid transmission rising again, we are once again requiring masks and social distancing at all our indoor events. Choir singing will continue under the covenant that the choir is vaccinated. Congregational singing will be allowed for those who are masked and socially distancing. All are asked to refrain from in-person participation if you have any symptoms that may be COVID-19 and have not had a negative antigen test. You may always safely worship with us on Facebook Live or join the classes that are offered on Zoom and Facebook Live. Please reach out to the person holding the class or meeting to find out if they are being held virtually.
